

Pheasant Run Condominium

Cat Trapping - March 23, 2018

After receiving numerous reports of cats on property, the Board of Directors contracted A+ Animal Solutions to humanely trap and remove the cats. They began the trapping session Tuesday and will finish up this coming Wednesday/Thursday. They have placed 4 traps around the buildings that are seeing the cats on a regular basis, moving them around as necessary. The traps are being checked once a day, and will be closed over the weekend so nothing is caught and left to sit for days. As of Thursday afternoon, they already caught 5 cats!

We appreciate your cooperation during this process!
